Overview

Vivitex FR Banner Lite is a lightweight woven polyester fabric which has been coated on both sides with a pigmented inkjet receptive top coating making it suitable for use in most UV inkjet and solvent inkjet machines. It is made in the USA and is suitable for indoor and short-term outdoor applications and is available in 60" 25 or 50 yard rolls (style# 1403) and 54" 25 yard rolls (style# 1404).

Physical Properties

Property	Unit	Test Method	Notes
Total Weight:	~3.85 oz.	ASTM D3776-96	Oz./Sq. Yard
Width:	54 in. / 60 in.		
Tear Strength:	~7.6 Warp ~6.9 Filling	ASTM D2261-96	Lbs. of Force
Break Strength:	~181 Warp ~118 Filling	ASTM D5034-95	Lbs. of Force
Fire Retardant:	Meets NFPA 701-99 CPAI-84		
Hydrostat:	90+ cm		

Test values are nominal and subject to revision.

Applications

- Banners
- P.O.P. displays
- Pennants
- Revolving banners
- Table drops
- Backdrops
- Sales promotions

Advantages

- Good for indoor or short-term outdoor use
- Light weight
- Matte finish
- Excellent dimensional stability
- Ultrasonic slit edges
- Economical on ink

List Of Printers

- Colorspan UVR, UVX
- Durst Rho 160, 205, 600
- HP 9000
- Inca UV
- Nur Tempo Q
- Vutek Solvent & UV
- Zund 215 UV
- And other Solvent and UV machines

Print Recommendations

Best results achieved on UV Digital inkjet printers. Most solvent machines will require a custom profile with reduced ink limits and higher heat settings than on vinyl or film.

Packaging and Handling

Rolls are put up in cartons on 3 in. suspended cores. Cartons should be stored laying flat. Do not leave standing on end for a prolonged period of time. Wrinkling or telescoping could occur.
