Overview

Poly light white is our lightweight woven polyester fabric with a white inkjet receptive top coating making it suitable for use in most solvent, eco solvent, and UV inkjet machines. It is suitable for indoor and short-term outdoor applications and is available in 54" 25 yard rolls (style# 1662) and in 60" 25 or 50 yard rolls (style# 1661).

Physical Properties

<u>Property</u>	<u>Unit</u>	<u>Test Method</u>	<u>Notes</u>
Total Weight:	3 oz.	ASTM D3776-96	Oz./Sq. Yard
Width:	54 in. / 60 in.		
Thickness:	0.10 mm		
Tear Strength:	6.0 Warp 6.0 Filling	ASTM D2261-96	Lbs. of Force
Break Strength:	150 Warp 100 Filling	ASTM D5034-95	Lbs. of Force
Fire Retardant:	No		

Applications

- Banners
- P.O.P. displays
- Pennants
- Table drops
- One-sided flags
- Backdrops
- Sales promotions

Advantages

- Natural woven textile look
- Good for short term outdoor use
- Excellent strength and dimensional stability
- Easy to cut-and-sew; resists fraying
- Ultrasonic slit edges
- Matte finish
- Made in the USA

List Of Printers

- Colorspan Gator, UVR
- Durst Rho 160, 205
- Gandinnovations Jeti
- Mimaki JV3
- Mutoh Falcon II Outdoor, Toucan
- Nur Fresco, Expedio, Tempo
- Roland
- Scitex Grand Jet, XL Jet
- Seiko Colorpainter
- Vutek Solvent & UV
- Other Solvent, Eco Solvent, and UV machines

Print Recommendations

On most solvent-based machines, pre and post heat settings should be higher than when printing on vinyl film or fabric. Set at highest resolution, print mode "best" and media type "textile" or "backlit". For the best results on Roland and other Eco Solvent machines, the use of an external heater is recommended.
